Upon further consideration, the indicated allowability of some claims has been withdrawn.

Claims 12-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 12, last line, there is no antecedent for the "threaded adjuster".

\* \* \* \* \*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 16 & 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Garvison 5,871,004 (newly cited).

Garvison shows a bowstring release including a housing 12; a trigger lever 34 that requires a constant travel

distance to disengage step 32 from tab 17 of sear 18 and thus release the sear; and a trigger adjustment mechanism coaxial with the housing, including an adjuster dial 42 which may be threaded into the housing (column 6, lines 17-25), and a spring or "adjuster" 40 which is responsive to rotation of the dial to alter the trigger force.

Claims 1-11, 17, & 18 are allowed.

Claims 12-14 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Claims 20-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
